World Pre-Eclampsia Day in Brazil

Botucatu

The Botucatu coordinating centre held activities with pregnant women and community leaders to disseminate knowledge about pre-eclampsia. Professor Leandro gave lectures throughout the day. A clothing and newborn care products donation drive was also organised, with donations distributed among the pregnant women attending the meetings.

The program “Pre-eclampsia - Myth or Truth” was launched (see here on [Youtube](#))!

In this program, Professor Leandro objectively clarifies a series of questions regarding pre-eclampsia.

Ribeirão Preto

The Ribeirão Preto Centre engaged directly with groups of pregnant women and provided informative flyers containing nutritional guidance and information on pre-eclampsia.

World Pre-Eclampsia Day in Brazil

Campinas

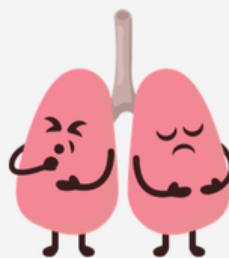

The researchers from Campinas joined the nursing team to organise a walk with community members. The starting line featured a tent where pregnant women and community members received guidance on the symptoms of pre-eclampsia.

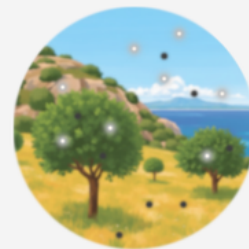

DOR DE CABEÇA

DOR NO ESTÔMAGO

FALTA DE AR

ALTERAÇÃO VISUAL

They also designed a memory game to help people learn and remember the symptoms of pre-eclampsia!

Thank you to Professor Leandro de Oliveira for writing this summary of activities!
